ABOUT ME

Dedicated programmer specializing in Artificial Intelligence - Machine Learning and Full Stack Development. Proficient in Python, Java, React.js, Flask, and Node.js, with a strong foundation in Cloud Computing and Database Management. Passionate about leveraging technical expertise to solve complex problems and drive impactful projects.

EXPERIENCE

AI Intern | AICTE | January - February 2025

- Developed an AI-powered Medical Assistant during the AICTE TechSaksham Internship (Microsoft & SAP CSR Initiative).
- Implemented a Retrieval-Augmented Generation (RAG) system, improving document retrieval accuracy by 30%.
- Integrated a multimodal LLM with Groq API, enabling text and image-based queries, expanding chatbot capabilities by 50%.
- Optimized FAISS-based retrieval, enhancing response precision by 35% and cutting data retrieval time by 40%.

Coordinator | Training and Placement Cell, ADGIPS | October 2024 - Present

- Collaborated with HR professionals and peers to execute placement drives impacting 200+ candidates.
- Streamlined processes for applicant management and pre-placement activities.

Contributor | GirlScript Summer of Code 2024- Extended | October - November 2024

- Enhanced AI capabilities of existing applications, increasing user engagement.
- Designed visually compelling brand identities, boosting project visibility across GitHub and community forums.

PROJECTS

IntelliAssist

- Developed an AI-powered virtual assistant with real-time automation, handling 30+ commands for enhanced user productivity.
- Integrated Cohere, Groq, and Hugging Face APIs, improving NLP and multimodal processing by 35%.
- Modular and extensible system with PyQt5-based GUI, customizable UI, chat history logging, and seamless automation.

RoadMap Generator

- Built an AI-driven roadmap generator using React to provide personalised learning paths based on user input.
- Integrated Cohere API for NLP, enhancing recommendation accuracy by 30%.
- Added note-taking and PDF export features, increasing platform usability by 50%.

PeriodPal

- Developed a menstrual cycle tracker using React, enhancing user awareness of health and fertility.
- Implemented an interactive calendar-based tracking system, improving accessibility by 40%.
- Applied front-end and back-end skills for seamless performance and intuitive design.

Budget Manager

- Created a Streamlit-based budget management tool integrating machine learning models for anomaly detection and expense prediction.
- Achieved 90% accuracy in forecasting expenses using Scikit-learn.
- Provided actionable insights for saving opportunities, improving financial planning for users.

EDUCATION

Dr. Akhilesh Das Gupta Institute of Professional Studies (Affiliated to Guru Gobind Singh Indraprastha University)

Bachelor of Technology, IT GPA - 8.7

Salwan Public School

Class XII - 93.8 %

Class X - 94.6 %

CERTIFICATIONS

IBM Watson and AI-ML - IBM

Web Development BootCamp - Udemy

Java Programming - Geeks for Geeks and Udemy

Data Structures and Algorithms - Geeks For Geeks

Postman API Fundamentals - Postman Academy

Cloud Computing with AWS - Internshala and NSDC
